

Rapp Trans (UK) Ltd – Press Release - 16th April 2010

Rapp Trans (UK) Ltd team expands to 9 with the appointment of Dr. Muna Hamdi and Dr. Ian Wilkinson

Dr. Muna Hamdi
Consultant
muna.hamdi@rapp-trans.co.uk
Mob: +44 7851 182677

Muna Hamdi joined Rapp Trans in March 2010 and has a broad knowledge of intelligent transport systems. She brings a range of valuable skills including project management, networking, negotiation, teamwork and customer focus.

Muna is also an experienced researcher, having obtained a PhD in Intelligent Systems from Loughborough University, UK; and MSc in Control and Systems Engineering, from the University of Technology in Baghdad.

Her career has centred on the identification of methods for optimising, controlling and solving real world problems, in particular through automation.

She organised a successful event "ITS: Future Vision" in November 2009, she was also actively involved in MED-IST, "The ICT Link between Europe and all Mediterranean Partner Countries" event and was invited to the following JOIN-MED - "Establishing the EU-Mediterranean ICT Research Network".

Dr. Ian Wilkinson
Managing Consultant
ian.wilkinson@rapp-trans.co.uk
Mob: +44 7969 229658

Ian rejoined Rapp Trans in April 2010

Ian has over 15 years of experience in ITS with a strong emphasis on road pricing. His work focuses on the interaction between policy and practical issues associated with the use of new technologies in transport.

Ian also offers broader management skills in facilitation, strategy development, planning, analysis, requirements specification and project management, as well as specific commercial experience in marketing and business finance. He holds a BSc (Hons) 1988 and PhD 1991 of the University of Reading and is Member of the Institute of Logistics and Transport.

About Rapp
